

DESCRIPTION

nT01BC07 HDMI 2.1 V armoured 8K Active Hybrid Cable is a hybrid cable with the combination of armoring , copper and fibre . It supports HDMI Data Rate 12Gbps per channel ,total 48Gbps , maximum resolution supported 8k 50/60 h with strong construction . Supports eARC ,HDCP and EDID . Flexible and ultra - thin od and a bending radius 40 mm - it is much easier to install these cable compared to conventional copper cable .With only 3.8mm OD and short HDMI plug ,the most slim Armoured HDMI interconnection solution on the market..Support up to 30m maximum length . It is a plug and play cable and dose not require external power . Application auditorium , home theatre , training room , meeting rooms , class rooms etc ..

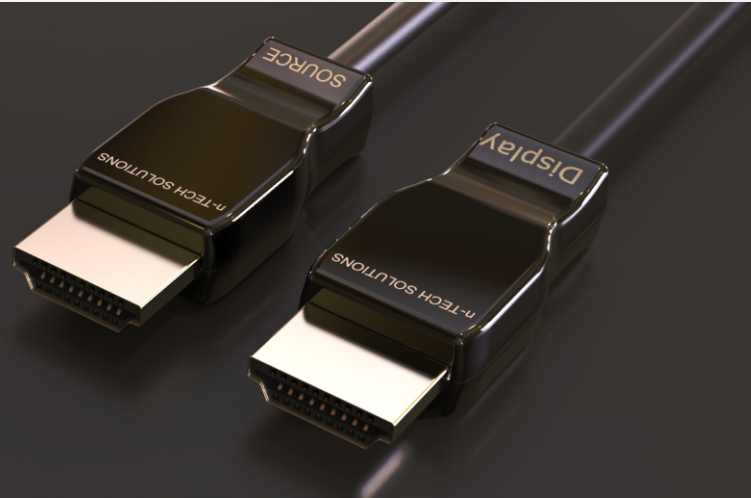

SPECIFICATION

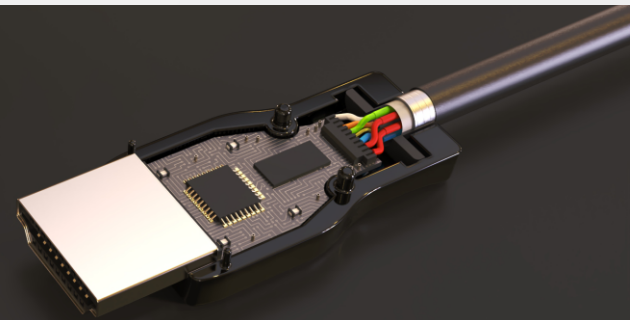

Connectors	:	Hdmi male - source and hdmi male - sink
Hdcp&ddc	:	Hdcp 2.2 fully support bi-directional edid and hdcp communication
Bandwidth	:	48 gbps(12 * 4 channels)
Resolutions	:	480,720,1080i, 1080p ,4k ,8k
Cable tye	:	Hybrid with 0m3 fiber and copper wire
Length available	:	5, 7.5,10,12,15,20,25 and 30 m
Cable od	:	3.8 mm , bending radius 25 mm
Tensile strength	:	Sr 25kgf , wire 44 kgf
Jacket material	:	Tpu
Armouring	:	Spiral stainless steel
Colour	:	Black

Hybrid Optic

With both Fiber
& Copper cable

Self Detecting EDID function
Low power consumption
HDCP, EARC Support
Upto 4K2K@60p
