

DESCRIPTION

nT02BC08 is a round speaker cable of 1 sq mm gauge. Made up of annealed oxygen free fine copper wires- 32 strands of 0.20 mm . The conductors are identified positive and negative by black and red colour .With high number of strands and low resistance the cable is best suitable for hi end audio installations .The cable is characterised by high flexibility and increased transmission parameters. In order to offer uniform capacitance throughout length the distance between the two conductors is maintained uniformly. Metre marking is provided at every metre . cable can be installed in channels, cable trays or in plaster. Colour Special matt grey .
