

DESCRIPTION

nT07DA19 The mask series is a wall mount with side covers for displays . The mask series provides the perfect touch to the aesthetics of the interior – it avoids the visibility of the back side cables and mount from the sides – making it seamless from the wall . The mount is provided with a display mount and the suitable side covers . The mount is designed for each size of display ranging from 32" to 65" . The side covers are designed with micro adjustments to make it versatile for different thickness / depth of displays . The side covers are designed for easy adjustment , easy installation and ease of removing and mounting the display . Available in portrait and landscape variants . Available color Black . Applications reception , board room , meeting room , digital signage , retail , education
