

DESCRIPTION

HDMI 2.0 V armored 4K Active Hybrid Cable is a heavy duty hybrid cable with the combination of armoring , copper and fiber . It supports HDMI Data Rate 6Gbps per channel ,total 18Gbps , maximum resolution supported 4k 50/60 hz with strong construction . Supports eARC ,HDCP and EDID . Flexible and ultra tactical tpu jacket – with 5.8 mm od and a bending radius of 60 mm – it is much easier to install these cable compared to conventional copper cable .Supports up to 100m maximum length . It can withstand the pull force up to 60 Kgs and It is crush resistance up to 100 kgs . It is a plug and play cable and does not require external power . Application auditorium , home theater , training room , meeting rooms , class rooms etc..

SPECIFICATION

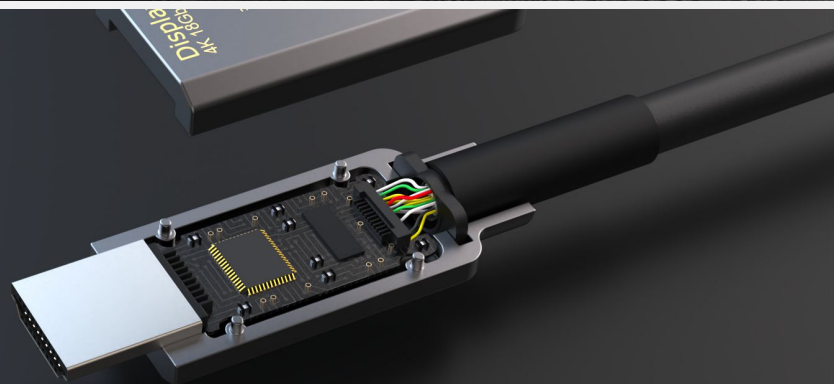

Connecters	:	HDMI male – source and HDMI male – sink
HDCP & DDC	:	Hdcp 2.2 fully support bi-directional EDID and HDCP communication
Bandwidth	:	18gbps(6*3 channels)
Resolutions	:	480,720,1080i,1080p,4k
Cable type	:	Hybrid with om3 fibre and copper wire
Length available	:	5,7.5,10,12,15,20,25,30,40,50,75 and 100m
Cable OD	:	5.8mm bending radius 60mm
Tensile strength	:	Sr 60kgf,wire 100kgf
Jacket material	:	TPU
Armoring	:	Spiral stainless steel
Color	:	Black

Hybrid Construction

With Both Fiber & Copper

Supports 18Gbps bandwidth
With 4kp50/60
