

HORIZONTAL CABLE MANAGER PLASTIC

nT6FE01

nT6FE01 is a 19", 1U rack-mount slotted cable manager with dual-level routing capacity—24 cable slots up and 24 cable slots down. Features a removable plastic cover for accessing cables and aesthetic finishing. Designed for installations where cables need to route from front left/right sides and pass through to back sides. Made of PVC plastic construction for clean, organized cable management with individual cable access without disturbing the entire bundle.
