

CABLE BUNDLE MANAGER

nT6FE07

nT6FE07 Cable bundle manager features 24 slots for cables with a maximum OD of 8 mm, arranged in a square bundle form. Designed to make cabling easy to access, neat, clean and manageable with quick cable identification. Can be mounted inside network racks and cable trays. Each cable can be taken out separately without disturbing the entire cable bundle, saving time and space while providing aesthetic finish and easy cable identification.

Available in blue colour.
